

VIBRANT WOVIN WALL-COVERING - CARE AND MAINTENANCE

You can protect your Vibrant Wovin wall-covering by following these easy guidelines.

1. Vibrant Wovin Vinyl wall covering should be vacuumed regularly enough to prevent dirt and grime from accumulating, and to maintain the original beauty of the vinyl.
2. Rinse thoroughly with clean warm water, using a sponge.
3. Vacuuming is the most efficient way to sift your fabric covering.
4. Attach a microfiber cloth to a brush and swipe it gently sideways to clean dusty corners.

DO

- Gently sponge with a mild detergent in warm water.
- Always wipe with the seams (usually up and down)
- Dry with a soft, lint-free cloth.

DON'T

- Do not use abrasive cleaners.
- Don't install wall covering on a textured and unclean wall.
