VIBRANT WECLIC (SPC) - CARE AND MAINTENANCE

You can protect your WECLIC (SPC) by following these easy guidelines.

1. Remove dirt and grit by sweeping or dust mopping daily
2. Wipe up spills as quickly as possible.
3. Use protective pads for furniture and appliances to prevent scratching.
4. Avoid exposure to direct sunlight or UV for prolonged periods of time.

DO

- Sweep or vacuum regularly
- Once a week, wipe your floor with a specifically designed cleaner
- Put door mats and rugs by doors
- Stagger the joints
- Lift furniture to move it – even with soft pads, grit can scratch
- Acclimate the planks

DON'T

- Don’t use a steam cleaner
- Don’t use abrasive materials such as scouring pads
- Don’t use adhesives
- Don’t skip maintenance
- Don’t leave puddles to soak in
- Don’t expose to excess moisture
